

I just want express how important K-LOVE 90.1 is to Little Rock. It provides a positive and encouraging influence on our community. It is practically the only station I and my family listens to, not to mention a lot of my friends.

I feel that the local community would be negatively affected if K-LOVE were to be displaced by a LPFM broadcaster providing other programming.

This station provides a service that no other station in Little Rock provides and would best serve public if it is allowed to continue to broadcast at 90.1 FM.
